

SUMMARY OF PRESENTATION

Summary of Presentation

Finding our path after the pandemic

Highlights:

- To override the two major global challenges, which are, ending the pandemic and tackling climate change, the EU will adopt a multilateral approach and rely on global cooperation.
- The EU will continue working towards vaccinating the world by optimizing access to the vaccine, lessening vaccination gaps, increasing cooperation between governments, organizations and businesses, and investing on treatments
- To actualize 'building back better', our recovery plans will be green and digital and align with the European Green Deal
- The EU will push towards the green maritime goals to reach decarbonization and zero pollution through practical strategies such as the Emissions Trading System.
- Through the Indo-pacific Strategy, the EU will strengthen development cooperation with partnering economies and deepen bilateral cooperation through the exchange of values and beliefs in an open and fair environment.
- The EU will continue in forging strong economic and political relations with the Republic of Korea by deepening bilateral cooperation and exchanging values and beliefs, in particular within sectors of climate, digital, security and vaccine.
- The EU strongly believes that flattening the emission curve by 2050 and green economic rebound will only be possible if we take bold and courageous climate action, together.
- The EU and its member states are ready to support and willing to work with Korean partners for a clean transition
