What Do we Want our Voyage to Look Like?

Korea's Maritime Leadership

A Remarkable Story of Transformation

Ports carry not just goods, but responsibility

- Port of Busan: From a modest trading hub to the 6th busiest container port in the world, handling over 22M+ TEU annually
- HD Hyundai Heavy Industries: Driving progress in the global shipbuilding market

Every Voyage Needs Three Things: a Compass, a Crew and the Wind

Innovation, the Global Ports and our Shared Momentum

We Must Take Four Leaps to Come Closer to our Destination!

The boldest leaps are taken not in calm waters, but in times of challenge!

Thank you for your Attention!
